

Second Quarter 2012 Report

Romspen has a long-term track record of successful mortgage investing across Canada. With its origins in the mid-60's, Romspen is one of the largest non-bank commercial/industrial mortgage lenders in Canada. The Fund's investment mandate is focused on capital preservation, absolute returns of 10% and performance consistency. Our investors are high net-worth individuals, foundations, endowments and pension plans.

Trustees' Report

August 3, 2012

Dear Fellow Investors:

Romspen's performance during the second quarter continued to match our expectations in a challenging interest rate and economic environment. On a year-to-date basis and during the past twelve months, the Fund has demonstrated strong absolute and comparative performance, besting all benchmarks, where returns have been poor and subject to extreme volatility.

Financial Highlights

Net income for the second quarter of 2012 was \$15.1 million or \$0.18 per unit compared to \$12.6 million or \$0.19 per unit a year ago. Unitholder distributions were \$0.19 per unit during the second quarter compared to \$0.20 per unit last year.

As at June 30, 2012, the net mortgage portfolio was \$850.7 million, an increase of 31% compared to a year ago and remains well diversified. The portfolio growth corresponds with the gradual rebound in economic activity following the slowdown during the credit crisis. The weighted average interest rate of the mortgage portfolio at June 30, 2012 was 10.6% compared to 11.1% a year ago as downward rate pressure across the yield curve remains pervasive.

The Fund had net debt (debt less unrestricted cash) of \$37.9 million at the end of the second quarter compared to net cash of \$3.8 million a year ago. Total unitholder capital surpassed \$840 million at the end of the quarter reflecting investors' continued confidence in the Fund's performance. The total loss provision at quarter end decreased to \$8.5 million, maintaining a comfortable margin of safety on our balance sheet against potential exposures. Losses during the second quarter of 2012 were \$1.1 million reflecting the realization of a loss that was fully reserved for. Net asset value as of June 30, 2012 was \$9.91 per unit, down slightly from the same time last year.

Comparative Performance

The compounded net yield to investors for the first six months of 2012 was 3.9% compared to 4.1% a year ago. This compares with T-bills, DEX Short Term Bond Index ("DEX-STBI"), and the S&P/TSX which yielded 0.5%, 0.9% and -1.5% respectively during the second quarter of 2012.

For the twelve-month period ended June 30, 2012, the Fund's compounded net yield to unitholders was 8.0%. This was significantly ahead of T-bills, the DEX-STBI, and the S&P/TSX which yielded 0.9%, 3.8%, and -10.3% respectively.

Outlook

Apprehension, uncertainty and unresolved global issues continue to dominate the economic landscape. Political intervention and unconventional measures by central banks seem to be a recurring feature in an effort to keep much of the global economy moving, albeit at an anaemic pace. History suggests that over-indebtedness and its resultant slowing economic activity portends a typically extended period of very low growth and depressed interest rates. We see no compelling reason why this time will be different. In our view, these conditions will persist for years to come, becoming the "new normal" for investors in most markets.

Our deal pipeline continues to build momentum into the back half of 2012 following a sluggish start to the year. While we remain highly selective, we expect to see the portfolio grow strongly into the balance of 2012, albeit at rates reflecting the prevailing economic conditions.

Subsequent to the quarter end, Romspen entered into a new \$100 million revolving loan facility with a syndicate of banks, led by National Bank of Canada. This expanded facility will help accommodate our increased operating requirements from managing a larger mortgage portfolio.

Romspen's initial entry into the US mortgage market, a little more than a year ago, continues to grow at a measured pace. Our current US portfolio is \$42 million, representing 12 loans and approximately 5% of the total mortgage portfolio value. These loans reflect a logical extension of our current lending practices into a market that continues to experience credit dislocation. Our experience to-date suggests the US market offers a plethora of opportunities that are at least as good, and in many cases more attractive, than we see domestically. As our network of US relationships continues to expand, along with our experience in this market, we expect it will account for an increasing proportion of the overall portfolio.

Thank you for your continuing confidence and support. If you require further information, please contact Investor Relations at 416-966-1100, or consult our website: www.romspen.com.

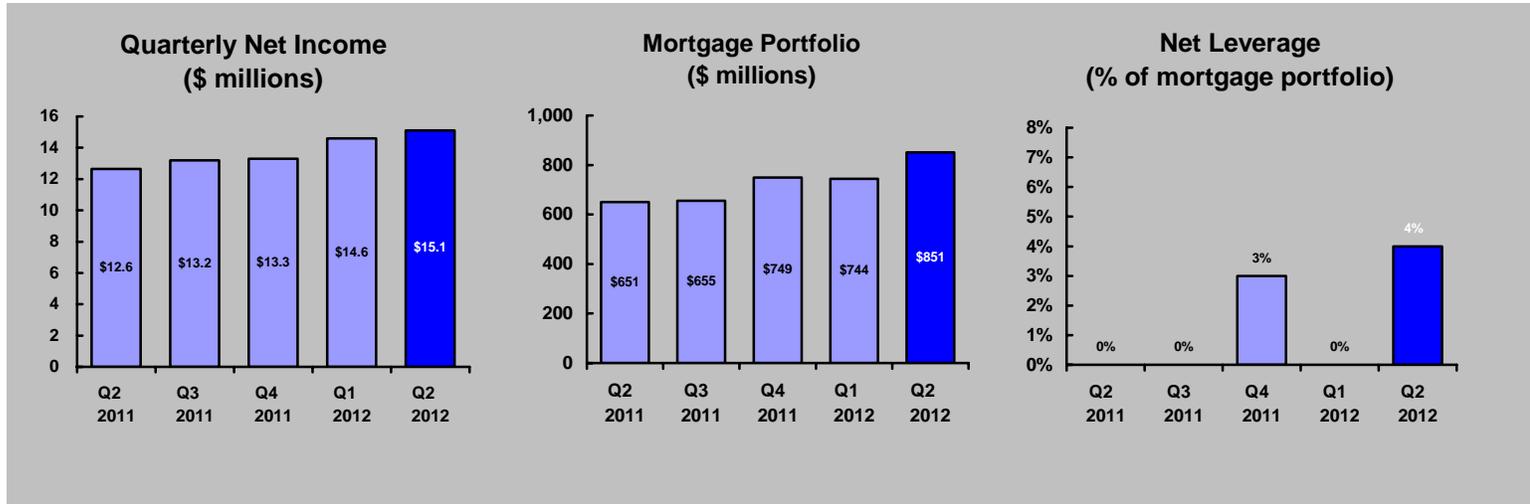

Respectfully submitted,

Sheldon	Mark	Arthur	Wesley

Management's Discussion & Analysis

Responsibility of Management

This Management's Discussion and Analysis ("MD&A") for Romspen Mortgage Investment Fund (the Fund") should be read in conjunction with the financial statements and notes thereto for the quarter ended June 30, 2012 included herein and the audited financial statements and MD&A for the year ended December 31, 2011. Investment in the Fund is subject to certain risks and uncertainties described in the Fund's Offering Memorandum, which should be read in conjunction with this MD&A. These documents are available on our website at: www.romspen.com.

Management is responsible for the information disclosed in this MD&A. The Fund has in place appropriate procedures, systems and controls to ensure such information is materially complete and reliable. In addition, the Fund's trustees have reviewed and approved the MD&A and the financial statements for the quarter ended June 30, 2012.

This MD&A contains certain forward-looking statements and non-GAAP financial measures, see "Forward-Looking Statements" and "Non-GAAP Financial Measures".

Forward-Looking Statements

From time to time the Fund makes written and verbal forward-looking statements. These are included in its quarterly Management's Discussion and Analysis ("MD&A"), Fund presentations and other Fund communications.

Forward-looking statements include, but are not limited to, business objectives and targets, Fund strategies, operations, anticipated financial results and the outlook for the Fund, its industry, and the Canadian economy. These statements regarding future performance are "financial outlooks" within the meaning of National Instrument 52-102. Forward-looking statements are typically identified by words such as "believe", "expect", "anticipate", "estimate", "plan", "may", and "could" or other similar expressions. By their very nature, these statements require us to make assumptions and are subject to inherent risks and uncertainties, general and specific, which may cause actual results to differ materially from the expectations expressed in the forward-

looking statements. These risks and uncertainties include, but are not limited to, global capital market activity, changes in government monetary and economic policies, changes in interest rates, inflation levels and general economic conditions, legislative and regulatory developments, competition and technological change. The preceding list is not exhaustive of possible factors. These and other factors should be considered carefully and readers are cautioned not to place undue reliance on these forward-looking statements. The Fund does not undertake to update any forward-looking statements, whether written or verbal, that may be made from time to time by it or on its behalf except as required by securities laws.

Non-GAAP Financial Measures

This MD&A contains certain non-GAAP financial measures. A non-GAAP financial measure is defined as a numerical measure of the Fund's historical or future financial performance, financial position, or cash flows that excludes amounts or is subject to adjustments that have the effect of excluding amounts, that are included in the most directly comparable measure calculated and presented in accordance with GAAP in the financial statements or includes amounts, or is subject to adjustments that have the effect of including amounts, that are excluded from the most directly comparable measure so calculated and presented. Non-GAAP financial measures disclosed herein are meant to provide additional information and insight regarding the historical operating results and financial position of the Fund. These measures are not in accordance with, or a substitute for, GAAP and may be different from or inconsistent with non-GAAP financial measures used by others.

Introduction

The Fund is an unincorporated closed-end investment trust established under the laws of the Province of Ontario pursuant to a trust indenture dated as at May 20, 2005. The Fund is a non-bank lender providing and investing primarily in short-term and medium-term commercial mortgages. The Fund is the

sole limited partner in the Romspen Mortgage Limited Partnership (the “Partnership”) and conducts its lending activities primarily through the Partnership. The objective of the Fund is to provide stable and secure cash distributions of income while preserving equity.

Romspen Investment Corporation (“Romspen”) is the Fund Manager and acts as the primary loan originator, underwriter, administrator and syndicator for the Partnership. Romspen also acts as administrator of the Fund’s affairs. Romspen and its principals, through predecessor companies, have been in the business of mortgage origination, servicing and syndication since 1966.

The Fund commenced operations on January 16, 2006, and during the second quarter of 2006 raised \$158.9 million pursuant to the Exchange Offering, whereby Romspen’s investors exchanged their syndicated mortgage interests for units of the Fund, and \$15.3 million pursuant to the Unit Offering described in its Offering Memorandum dated September 15, 2005.

On June 22, 2007, new federal legislation came into force that altered the taxation regime for specified investment flow-through trusts or partnerships (“SIFT”) (the “SIFT Rules”). Under the SIFT Rules, certain distributions from a SIFT will no longer be deductible in computing a SIFT’s taxable income and a SIFT will be subject to tax on such distributions at a rate that is substantially equivalent to the general corporate tax rate. Distributions paid by a SIFT as returns of capital will not be subject to the tax. As its units are not listed on a stock exchange or other public market, the Fund is not subject to the SIFT tax regime.

The Offering Memorandum, financial statements and additional information on the Fund are available and updated regularly on the Fund’s website at: www.romspen.com. Unitholders who would like further information may also contact the Investor Relations department of the Fund at: 416-966-1100.

Mortgage Portfolio

As of June 30, 2012, the Fund’s mortgage portfolio, net of fair value provisions, was \$850.7 million compared with \$651.0 million at June 30, 2011. This increase of 31% or \$199.7 million reflects the increased activity in mortgage markets supported by a strong inflow of investor capital. The

portfolio increased to 126 mortgages versus 117 in the prior year.

Approximately 94% of the portfolio was invested in first mortgages at June 30, 2012 which is unchanged from a year ago. The weighted average interest rate of the portfolio decreased to 10.6% at the end of the second quarter versus 11.1% a year ago reflecting an interest rate environment currently facing historic lows.

The portfolio continues to consist mainly of short-term mortgages. Approximately 72% of the portfolio’s mortgage investments mature within one year (June 30, 2011 – 66%) and 95% mature within two years (June 30, 2011 – 91%). In addition, all of our mortgages are open for repayment prior to maturity. The short-term nature of the Fund’s portfolio provides us with the opportunity to continually evolve the portfolio in response to changes in the real estate and credit markets. The Fund Manager believes this flexibility is far more important in our market niche than securing long-term fixed interest rates.

As of June 30, 2012, approximately 47% of our mortgage investments were in Ontario compared to 40% a year ago. Approximately 43% of the Portfolio was invested in Western Canada, 5% in other provinces and 5% in the U.S. The Fund Manager believes this level of diversification adds stability to the Fund’s performance by reducing dependency on the economic activity and cycles in any given geographic region.

Total fair value provisions as of June 30, 2012 were \$8.5 million, which represented 1% of the original cost of the Fund’s mortgage investments as at June 30, 2012. No losses were recognized during the second quarter. The fair value provision is based on assumptions relating to the Fund’s mortgage investments and only the passage of time will determine the actual performance of the mortgages. The fair value provision will continue to be reviewed by the Fund Manager and the Fund’s trustees and, if appropriate, will be adjusted.

Income Statement Highlights

Total revenues for the quarter ended June 30, 2012 were \$17.3 million compared to \$14.5 million in the previous

year. The increase in revenue reflects an increase in the size of the portfolio offset by a decrease in the weighted average interest rate of the portfolio.

Net earnings for the quarter increased to \$15.1 million from \$12.6 million for the second quarter last year due to higher revenues partially offset by an increase in the loan reserve. Basic weighted average earnings per unit for the quarter of \$0.18 per unit, marginally lower than the prior year.

The Fund distributed \$15.9 million or \$0.19 per unit during the second quarter (2011 - \$13.4 million or \$0.20 per unit). The simple and compounded net yield to unitholders for the six month period ended June 30, 2012 were 3.8% and 3.9% respectively. The net yield to unitholders on a simple and compound basis for the preceding twelve-month period were 7.7% and 8.0% respectively.

Management fees payable to the Fund Manager and other general and administrative expenses of the Fund were \$2.1 million for the quarter compared to \$1.7 million in the previous year. These expenses were higher than the previous year and reflect the larger portfolio value.

Balance Sheet Highlights

Total assets as of June 30, 2012 were \$893.9 million compared to \$687.8 million a year ago. Total assets are comprised primarily of mortgages recorded at fair market value and accrued interest receivable on those mortgages. In addition, the Fund had excess cash at quarter end of \$4.6 million.

Total liabilities excluding units submitted for redemption as of June 30, 2012 were \$53.3 million compared with \$10.7 million a year earlier. Liabilities at the end of the second quarter were comprised mainly of \$40 million of line of credit, \$3 million of prepaid unit capital, and \$9.8 million in accounts payable and distributions payable to unitholders. Though use of the revolver was higher than usual at quarter end, the line was paid down in July. Drawings under the revolving loan facility, together with net cash proceeds of the Unit Offering, are used to increase the Fund's mortgage portfolio. Net debt (debt less unrestricted cash) stood at \$37.9 million of positive cash (4.5% of mortgage portfolio) at quarter end versus net debt of \$6.4 million (1.0% of mortgage portfolio) last year.

The revolving loan facility bears interest at prime plus 3.5% and is secured by all assets of the Partnership and a pledge of all Partnership units held by the Fund. Subsequent to quarter end, the Fund entered into a new \$100 million revolving loan facility with a syndicate of banks, led by National Bank of Canada. This new facility bears interest of prime plus 2.0%. This expanded facility will help accommodate our increased operating requirements from managing a larger portfolio.

Unitholders' equity plus units submitted for redemption as of June 30, 2012 were \$840.6 million compared with \$677.1 million as of June 30, 2011. The increase is primarily from proceeds of issuances of \$191,621 million in excess of redemptions of \$25,096 million during the previous 12 months. These amounts represented approximately ten dollars per unit outstanding at the end of each reporting period. There were a total of 84,825,358 units outstanding on June 30, 2012 compared to 68,192,502 on June 30, 2011. There are no options or other commitments to issue additional units.

Liquidity and Capital Resources

Pursuant to the trust indenture, 100% of the Fund's net earnings must be distributed to unitholders. This means that growth in the mortgage portfolio can only be achieved through the raising of additional unitholder equity and utilizing available borrowing capacity. The Fund was levered as of June 30, 2012 with 5% borrowed as a percentage of the book value of mortgages compared to nil as of June 30, 2011.

During the six months ended June 30, 2012, proceeds from the issuance of units net of redemptions and costs were \$90.2 million compared to \$125.1 million during the same period of 2011. This increase stems from the attractiveness of the Fund's high yield in the context of the current investment environment.

The Fund's mortgages are predominantly short-term in nature with the result that continual repayment by borrowers creates liquidity for ongoing mortgage investments.

Related Party Transactions

Romspen acts as mortgage manager for the Partnership and administrator for the Fund. The trustees of the Fund

are all principals of Romspen. In consideration for its services, Romspen receives a fee equal to 1% per annum, calculated daily and paid monthly, of the total of all mortgage investments plus the fair value of any non-mortgage investments. Romspen also receives all lender, broker, origination, commitment, renewal, extension, discharge, participation, and other administrative fees charged to borrowers. In addition, the Partnership has granted to Romspen the option to purchase any mortgage investment held by the Partnership for a purchase price equal to the principal amount of such mortgage plus any accrued interest.

From time-to-time the Partnership may invest in mortgage loans made to borrowers who are related to Romspen or the trustees of the Fund. The Partnership may also invest in mortgages which are syndicated among Romspen, the Fund's trustees, or related parties. The Partnership's interests in such syndications rank either pari-passu with, or in priority to, the related party investors.

These related party transactions are further discussed in the notes to the accompanying audited consolidated financial statements.

Risk Management

The Fund is exposed to various financial instrument risks in the normal course of business. The Fund Manager and trustees have put in place various procedures and safeguards to mitigate these risks in order to ensure the preservation of capital as well as the achievement of acceptable and consistent rates of return. For details on financial instrument risks and management's response to these risks, please see note 14 of the Financial Statements.

Outlook

The Fund's investment objective is to return a predictable and secure cash yield to unitholders while preserving capital at all times through prudent loan underwriting and management. Our evaluation of new opportunities remains cautious as the world economy continues to be unsettled.

We continue to operate in a low growth environment where investment returns have diminished and risk remains at the forefront. Uncertainty remains about the future direction of the economy and mounting debt, particularly among European countries and financial institutions. Significant monetary policy accommodation has not sufficiently abated the possibility of another credit crisis or recession. As such, this

uncertainty will impact mortgage investment decisions and as a consequence, we remain highly selective with new loan evaluation and funding.

A gradual rotation of the portfolio continues where some non-performing loans in the portfolio are replaced with newer and better performing loans, albeit at lower rates than previously. Furthermore, our previous decisions to not accrue interest on certain loans where the collection and/or timing on interest remains unclear, moderately reduces our returns.

We continue to work on evaluating a strong deal pipeline of mortgage opportunities and expect continued growth in the portfolio during the balance of the year. Our US loan portfolio currently makes up approximately 5% of the total loans as at June 30, 2012. These loans are reflective of our existing underwriting practices and provide a greater opportunity for stable returns without increased risks. Since opportunities in the US are more plentiful, due to tight credit market conditions, we expect this portion of our portfolio to grow over time.

Romspen has strongly outperformed most other investment alternatives over the past five year period 2007-2011 and on a 2012 year-to-date basis as well. Based on results to-date, we believe Romspen's 2012 performance will be largely consistent with our expectations at the outset of the year, being in the range of 7.5-8.0%.

Romspen Mortgage Investment Fund

Notes to Interim Consolidated Financial Statements

(In thousands of dollars, except per unit amounts, unless otherwise noted)

Six months ended June 30, 2012 and 2011

Romspen Mortgage Investment Fund (the "Fund") is an unincorporated closed-end investment trust established under the laws of the Province of Ontario, pursuant to a trust indenture dated as at May 20, 2005. The Fund is the sole limited partner in the Romspen Mortgage Limited Partnership (the "Partnership") and conducts its lending activities primarily through the Partnership. The objective of the Fund is to provide stable and secure cash distributions of income, while preserving unitholders' equity.

Romspen Investment Corporation ("Romspen") is the Fund's mortgage manager and acts as the primary loan originator, underwriter, administrator and syndicator for the Partnership. Romspen also acts as administrator for the Fund's affairs.

The Fund commenced operations on January 16, 2006. Under an exchange offering completed in January 2006, mortgages in the aggregate principal amount of \$158,855 were exchanged for 15,885,461 units of the Fund.

1. Basis of presentation:

These consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles ("GAAP"). The consolidated financial statements include the accounts of the Fund and the Partnership.

2. Significant accounting policies:

(a) Mortgage investments:

In accordance with Accounting Guidelines 18, Investment Companies, the Fund's investments are recorded at fair value, as defined by the Canadian Institute of Chartered Accountants' ("CICA") Handbook Section 3855, Financial Instruments - Recognition and Measurement ("Section 3855"). The unitholders' equity of the Fund for financial reporting purposes is calculated in accordance with Section 3855.

Certain of the Fund's mortgages are in arrears and realization by the Fund may result in a shortfall. In determining fair value of individual mortgages, management considers the length of time the mortgage has been in arrears, the overall financial strength of the borrowers and the residual value of the security pledged.

Romspen Mortgage Investment Fund

Notes to Interim Consolidated Financial Statements (continued)

(In thousands of dollars, except per unit amounts, unless otherwise noted)

Six months ended June 30, 2012 and 2011

2. Significant accounting policies (continued):

Any unrealized changes in the fair value of mortgage investments are recorded in the consolidated statements of earnings as an unrealized fair value adjustment. A realized change in the fair value of a mortgage as a result of a disposition or repayment is recorded as a realized fair value adjustment.

(b) Revenue recognition:

(i) Interest income:

Interest income is accounted for on the accrual basis. Funding and participation fees received are amortized over the expected term of the mortgage.

(ii) Discount income:

The Fund may acquire mortgage portfolios from third parties at fair market value. A mortgage discount will exist to the extent that the fair market value of a mortgage is less than its par value. The discount is allocated between a valuation reserve component and an accretion component. The valuation reserve component represents the risk of credit loss, while the accretion component represents the part of the discount to be recognized to income over time, thereby adjusting the yield on the mortgage from its face rate to an effective yield. The accretion component is amortized to income over the term of the related mortgage through the application of the effective interest rate method. The valuation reserve component is only recognized into income upon payout, less any realized credit loss.

(c) Use of estimates:

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the year. The most significant estimates that the Fund is required to make relate to the fair value of the mortgage investments in (a) above. The estimates may include: assumptions regarding local real estate market conditions; interest rates and the availability of credit; cost and terms of financing; the impact of present or future legislation or regulation; prior encumbrances and other factors affecting the mortgage and underlying security of the mortgage investments.

Romspen Mortgage Investment Fund

Notes to Interim Consolidated Financial Statements (continued)

(In thousands of dollars, except per unit amounts, unless otherwise noted)

Six months ended June 30, 2012 and 2011

2. Significant accounting policies (continued):

These assumptions are limited by the availability of reliable comparable data, economic uncertainty, ongoing geopolitical concerns and the uncertainty of predictions concerning future events. Credit markets, equity markets and consumer spending are factors in the uncertainty inherent in such estimates and assumptions. Accordingly, by their nature, estimates of fair value are subjective and do not necessarily result in precise determinations. Should the underlying assumptions change, the estimated fair value could change by a material amount.

(d) Net earnings per unit:

Net earnings per unit are computed by dividing net earnings for the year by the weighted average number of units outstanding during the year.

(e) Prepaid unit capital:

Prepaid unit capital consists of subscription amounts received in advance of the unit issuance date.

(f) Financial instruments - recognition and measurement:

CICA Handbook Section 3855 establishes standards for recognizing and measuring financial assets and financial liabilities, including non-financial derivatives. In accordance with this standard, the Fund has classified its financial assets as one of the following: held-to-maturity; loans and receivables; held-for-trading or available-for-sale. All financial liabilities must be classified as: held-for-trading or other financial liabilities. The Fund's designations are as follows:

(i) Cash, restricted cash, accrued interest receivable and other assets are classified as loans and receivables and are measured at amortized cost.

(ii) The revolving loan facility, accounts payable and accrued liabilities, prepaid unit capital, units submitted for redemption and unitholders' distributions payable are classified as other financial liabilities and are measured at amortized cost using the effective interest rate method.

Romspen Mortgage Investment Fund

Notes to Interim Consolidated Financial Statements (continued)

(In thousands of dollars, except per unit amounts, unless otherwise noted)

Six months ended June 30, 2012 and 2011

3. Future accounting standards issued and not yet adopted:

International Financial Reporting Standards ("IFRS"):

In December 2011, the Canadian Accounting Standards Board ("AcSB") extended the deferral of the adoption of IFRS to fiscal years beginning on or after January 1, 2014 for investment companies.

The Fund will adopt IFRS on January 1, 2014. The Fund expects to report its financial results for the year ended December 31, 2014 prepared in accordance with IFRS. The Fund will also provide comparative data on an IFRS basis, including an opening consolidated statement of net assets as at January 1, 2013. Further revisions by the AcSB to the IFRS adoption date for investment companies are possible.

The Fund has presently determined that the impact of IFRS will be limited to additional note disclosure and modifications to existing presentation and does not expect that the net earnings will be impacted by the changeover to IFRS. This determination may change as the Fund finalizes its assessment of potential IFRS differences and as new standards are issued by the International Accounting Standards Board prior to the Fund's adoption of IFRS.

4. Mortgage investments:

The following is a summary of the 126 mortgages held as at June 30, 2012:

			2012	2011
	Number of mortgages making up balance	Original cost	Fair value	Fair value
First mortgages	118	\$ 808,143	\$ 800,780	\$ 619,489
Second mortgages	7	39,446	38,358	30,507
Third mortgages	1	11,609	11,609	968
	126	\$ 859,198	\$ 850,747	\$ 650,964

Romspen Mortgage Investment Fund

Notes to Interim Consolidated Financial Statements (continued)

(In thousands of dollars, except per unit amounts, unless otherwise noted)

Six months ended June 30, 2012 and 2011

4. Mortgage investments (continued):

The following is a summary of the original cost of mortgages segmented by interest rate at June 30 2012:

Interest rates	June 30, 2012	June 30, 2011
Less than 10.00%	\$ 305,530	\$ 189,392
10.01% - 11.00%	160,816	77,720
11.01% - 12.00%	263,605	237,184
12.01% - 20.00%	125,760	147,770
Over 20.00%	3,487	3,717
	<u>\$ 859,198</u>	<u>\$ 655,783</u>

CICA Handbook Section 3862, Financial Instruments - Disclosures ("Section 3862"), by establishing enhanced disclosure requirements for fair value measurements of financial instruments and liquidity risks. Section 3862 establishes a three-level valuation hierarchy for disclosure of financial instruments measured at fair value based upon the degree to which the inputs used to value an asset or liability as of the measurement date are observable:

- Level 1 - quoted (unadjusted) in active markets for identical assets or liabilities;
- Level 2 - inputs other than quoted prices in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and
- Level 3 - inputs for the assets or liability that are not based on observable market data (unobservable inputs).

The Fund's mortgage investments are measured at fair value using unobservable inputs. As a result, all mortgage investments have been classified in Level 3 of the valuation hierarchy.

A reconciliation of Level 3 assets for the year ended June 30 is as follows:

	2012	2011
Mortgage investment balance, beginning of year	\$ 749,059	\$ 518,951
Funding of mortgage investments	205,245	309,427
Discharge of mortgage investments	(103,451)	(168,761)
Unrealized gain (loss) in the value of mortgage investments	(1,067)	(965)
Realized loss on mortgage investments	1,067	-
Amortization of discount	(106)	(7,668)
Mortgage investment balance, end of year	<u>\$ 850,747</u>	<u>\$ 650,964</u>

Romspen Mortgage Investment Fund

Notes to Interim Consolidated Financial Statements (continued)

(In thousands of dollars, except per unit amounts, unless otherwise noted)

Six months ended June 30, 2012 and 2011

4. Mortgage investments (continued):

The mortgages are secured by real property and other security, bear interest at a weighted average rate of 10.6% at June 30, 2012 (2011 – 11.1%) and mature between 2012 and 2018.

Credit risk arises from the possibility that mortgagors may be unable to fulfill their obligations. In accordance with the Fund's policies, the Fund mitigates this risk by ensuring that its mix of mortgages is diversified and by limited exposure to any one mortgagor or property.

As part of the assessment of fair value, management of the Fund routinely reviews each mortgage for impairment to determine whether or not a mortgage should be recorded at its estimated realizable value.

Borrowers have the option to repay principal at any time prior to the maturity date. Principal repayments based on contractual maturity dates are as follows:

2012	\$	387,584
2013		342,249
2014		116,840
2015 and after		12,525
	\$	859,198

The Partnership has subscribed for shares in the following corporations to either improve, redevelop, or complete these properties in order to maximize their disposition value.

Company	Property	Description	Mortgage Value
1460518 Alberta Inc.	9420 51 st Avenue, Edmonton, AB	Office complex	\$ 16,181

Romspen Mortgage Investment Fund

Notes to Interim Consolidated Financial Statements (continued)

(In thousands of dollars, except per unit amounts, unless otherwise noted)

Six months ended June 30, 2012 and 2011

5. Restricted cash:

Restricted cash represents irrevocable standby letters of credit issued by the Fund.

6. Revolving loan facility:

The Partnership renewed its revolving loan facility on June 1, 2012 in the maximum amount of \$40,000 (2011 - \$50,000), of which approximately \$nil (2011 - \$50,000) is available and \$40,000 has been drawn as at June 30, 2012 (2011 - \$nil). Interest on the loan is charged at prime rate plus 3.5%. The minimum and maximum amounts drawn under the revolving loan facility during the six months ended June 30, 2012 were \$nil and \$40,000 (2011 - \$nil and \$27,000), respectively. The loan is secured by all assets of the Partnership and a pledge of all Partnership units held by the Fund.

Subsequent to the quarter end, the Partnership entered into a new \$100,000,000 revolving loan facility with a syndicate of banks led by National Bank of Canada. Interest on the loan is charged at prime rate plus 2.0%. The loan is secured by all assets of the Partnership and a pledge of all Partnership units held by the Fund.

7. Unitholders' equity:

The beneficial interests in the Fund are represented by a single class of units, which are unlimited in number. Each unit carries a single vote at any meeting of unitholders and carries the right to participate pro rata in any distributions. Unitholders have a limited right to redeem their units, on a monthly basis, upon a minimum of 30 days' notice. Partial or complete redemption of units is limited on a monthly basis to 1% of the aggregate fair market value of units outstanding on the valuation date immediately preceding the said redemption date. Redemption notices on any given redemption date shall maintain their order of priority until the unit redemption price for such units has been paid in full. Additionally, the trustees shall be entitled in their sole discretion to extend the time for payment of any unit redemption prices if, in the reasonable opinion of the trustees, such payment would be materially prejudicial to the interests of the remaining unitholders in the Fund.

As at June 30, 2012, unitholders representing approximately 292,865 units have requested redemption of their units, the redemption of which is subject to the above restrictions. These units have been reclassified to liabilities from unitholders' equity in order to comply with applicable accounting rules. These units, however, continue to have the same rights and no priority over the remaining units. Units submitted for redemption are redeemed at the net asset value.

Romspen Mortgage Investment Fund

Notes to Interim Consolidated Financial Statements (continued)

(In thousands of dollars, except per unit amounts, unless otherwise noted)

Six months ended June 30, 2012 and 2011

7. Unitholders' equity (continued):

(a) The following units are issued and outstanding:

	2012		Six Months ended June 30		2011	
	Units	Amount	Units	Amount	Units	Amount
Balance, beginning of year	75,817,488	\$ 758,585	55,687,187	\$ 557,101		
New units issued	8,628,710	86,287	12,565,306	125,653		
New units issued under distribution reinvestment plan	1,270,455	12,705	842,147	8,421		
Units redeemed	(891,295)	(8,836)	(902,138)	(8,959)		
Proceeds from issuance of units, net of redemptions	9,007,870	90,156	12,505,315	125,115		
Balance, end of year	84,825,358	\$ 848,741	68,192,502	\$ 682,216		

During the normal course of business, the Fund receives unit issuance and redemption requests from the investors. In 2012, the Fund received requests for redemption of 869,313 units (2011 – 1,271,995) and redeemed 891,295 units (2011 – 902,138) for \$8,836 (2011 - \$8,959) in accordance with its policies.

The Fund continues to issue new units and receive redemption requests, which will be processed in accordance with the above-mentioned policies.

(b) Distribution reinvestment plan and direct unit purchase plan:

The Fund has a distribution reinvestment plan and direct unit purchase plan for its unitholders, which allows participants to reinvest their monthly cash distributions in additional units at a unit price equivalent to \$10.00 per unit.

8. Net asset value per unit and net earnings per unit:

Net asset value per unit is calculated as total assets less total liabilities allocable to outstanding units, excluding units submitted for redemption, of 84,532,493 as at June 30, 2012 (2011 – 67,595,954).

Net earnings per unit has been computed using the weighted average number of units issued and outstanding of 81,787,338 for the six months ended June 30, 2012 (2011 – 62,906,151).

Romspen Mortgage Investment Fund

Notes to Interim Consolidated Financial Statements (continued)

(In thousands of dollars, except per unit amounts, unless otherwise noted)

Six months ended June 30, 2012 and 2011

9. Distributions:

The Fund makes distributions to the unitholders monthly on or about the 15th day of each month. The Fund's trust indenture requires that the Fund will distribute 100% of the net earnings of the Fund, determined in accordance with the Income Tax Act (Canada), to the unitholders.

For the six months ended June 30, 2012, the Fund declared distributions of \$0.38 (2011 - \$0.40) per unit and a total of \$31,081 (2011 - \$20,592) was distributed to the unitholders.

10. Income taxes:

The Fund is taxed as a mutual fund trust for income tax purposes. Pursuant to the trust indenture, the Fund is required to distribute 100% of its income for income tax purposes each period to such an extent that it will not be liable for income tax under the Income Tax Act (Canada). Therefore, no provision for income taxes is required on earnings of the Fund.

On June 22, 2007, new legislation relating to the federal income taxation of a specified investment flow-through trust or partnership ("SIFT") received royal assent (the "SIFT Rules").

Under the SIFT Rules, certain distributions from a SIFT will no longer be deductible in computing a SIFT's taxable income and a SIFT will be subject to income taxes on such distributions at a rate that is substantially equivalent to the general tax rate applicable to a Canadian corporation. Distributions paid by a SIFT as returns of capital will not be subject to income taxes.

The Fund is not subject to the SIFT tax regime as its units are not listed or traded on a stock exchange or other public market. Accordingly, the Fund has not recorded a provision for income taxes or future income tax assets or liabilities in respect of the SIFT Rules.

11. Related party transactions and balances:

Transactions with related parties are in the normal course of business and are recorded at the exchange amount, which is the amount of consideration established and agreed to by the related parties and which represents fair market value.

Other than the transactions disclosed elsewhere in these consolidated financial statements, the Fund had the following significant related party transactions:

Romspen Mortgage Investment Fund

Notes to Interim Consolidated Financial Statements (continued)

(In thousands of dollars, except per unit amounts, unless otherwise noted)

Six months ended June 30, 2012 and 2011

11. Related party transactions and balances (continued):

- (a) All the trustees of the Fund are owners of Romspen. Under various agreements, Romspen manages all the day-to-day affairs of the Fund and the Partnership. Romspen receives fees totalling 1% per annum, calculated daily and payable monthly, of the principal balance of all mortgage investments and the fair market value of all other non-mortgage investments. For the six months ended June 30, 2012, the amount was \$3,918 (2011 - \$2,960).
- (b) Romspen and related entities also receive certain fees directly from the borrower generated from Fund mortgage investments as follows: all lender, broker, origination, commitment, renewal, extension, discharge, participation, insufficient funds and administration fees generated on the mortgages. For the six months ended June 30, 2012, this amount was \$4,823 (2011 - \$4,266).
- (c) Romspen charges the Fund for brokering and originating the acquisition of portfolio of existing loans, calculated as 2% of the loan portfolio. For the six months ended June 30, 2012, the amount was \$120 (2011 - \$932).
- (d) Several of the Fund's mortgages are syndicated with other investors of Romspen, which may include Romspen, members of management of Romspen and officers or trustees of the Fund. The Fund ranks equally with, or in priority to, other members of the syndicate as to receipt of principal and income.
- (e) For the six months ended June 30, 2012, the Fund had six (2011 - six) mortgages outstanding with an original cost of \$38,676 (2011 - \$36,885), including accrued interest of \$5,669 (2011 - \$6,640) and fair value of \$33,758 (2011 - \$35,678) due from mortgagors in which members of management of Romspen own non-controlling equity interests.
- (f) At the discretion of Romspen, the Fund participated in 50% of the funding fees received by Romspen on certain mortgage advances. Amounts received during the six months ended June 30, 2012 amounted to \$nil (2011 - \$157) and \$313 (2011 - \$255) was recognized in other revenue.

Romspen Mortgage Investment Fund

Notes to Interim Consolidated Financial Statements (continued)

(In thousands of dollars, except per unit amounts, unless otherwise noted)

Six months ended June 30, 2012 and 2011

12. Commitments and contingent liabilities:

- (a) In the event that management agreements are terminated, the various management agreements between the Fund, the Partnership and Romspen contain provisions for the payment of termination fees of an amount equal to 2% of the fair market value of the Partnership's assets under administration on the date on which the termination notice is received, in addition to any other amounts owing by the Partnership. These amounts will be satisfied by the payment of cash, interests in mortgages or in such combination thereof as determined by the mortgage manager. These agreements continue in force until terminated in accordance with their provisions.
- (b) The Partnership has granted an irrevocable option to Romspen to purchase, at any time, any or all Partnership mortgages at a purchase price equal to the principal amount of such mortgage plus accrued interest.
- (c) The Partnership in certain situations provides guarantees for its subsidiaries.

13. Fair values of financial instruments:

The fair values of cash, restricted cash, accrued interest receivable, revolving loan facility, accounts payable and accrued liabilities, unitholders' distributions payable and prepaid unit capital approximate their carrying values due to their short-term maturities.

14. Financial instrument risk management:

- (a) Interest rate risk:

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Fund manages this risk by investing primarily in short-term mortgages. The Fund's investment objective is to obtain an acceptable and consistent absolute rate of return that is not related to any market-based interest rate benchmark.

As a result, the credit characteristics of the Fund's mortgages will evolve such that in periods of higher market interest rates, the Fund's mortgages will be those with narrower credit spreads, and vice versa in periods of lower market interest rates compared to other benchmark interest rates.

The majority of the Fund's investments are in fixed rate, short-term mortgages. The Fund generally holds all of its mortgages to maturity. There is no secondary market for the Fund's

Romspen Mortgage Investment Fund

Notes to Interim Consolidated Financial Statements (continued)

(In thousands of dollars, except per unit amounts, unless otherwise noted)

Six months ended June 30, 2012 and 2011

14. Financial instrument risk management (continued):

mortgages and in syndication transactions, these mortgages are generally traded at face value without regard to changes in market interest rates.

The Fund's debt under the revolving loan facility (note 6) bears interest based on the prime rate plus 3.5%.

As at June 30, 2012, if interest rates on the revolving loan facility had been 100 basis points lower or higher, with all other variables held constant, net earnings for the quarter would be affected with a total increase or decrease of \$13 (2011 - \$NIL). The Fund monitors the financial markets and can adjust the pricing of renewals and new loans when it deems it appropriate.

(b) Credit risk:

Credit risk is the risk of loss due to borrowers under the Fund's mortgages failing to discharge their obligations. The Fund's sole activity is investing in mortgages (note 4) and, therefore, generally all of its assets are exposed to credit risk. Any instability in the real estate sector and adverse change in economic conditions in Canada could result in declines in the value of real property securing the Fund's mortgage investments. The Fund manages credit risk by adhering to the investment and operating policies, as set out in its Offering Memorandum. This includes the following policies:

- (i) No more than 20% of the Fund's capital may be invested in subordinate mortgages; and
- (ii) No more than 10% of the Fund's capital may be invested in any single mortgage or to any single borrower.

The Fund focuses its investments in the commercial mortgage market segments described in its Offering Memorandum, which includes development mortgages, construction mortgages, term financing mortgages and residential mortgages. These mortgages generally have the following characteristics:

- (i) initial terms of 12 to 24 months;
- (ii) loan to value ratios of approximately 65% at time of underwriting;
- (iii) significant at-risk capital and/or additional collateral of property owner; and
- (iv) full recourse to property owners supported by personal guarantees.

Romspen Mortgage Investment Fund

Notes to Interim Consolidated Financial Statements (continued)

(In thousands of dollars, except per unit amounts, unless otherwise noted)

Six months ended June 30, 2012 and 2011

14. Financial instrument risk management (continued):

In addition, the Fund's trustees meet regularly to review and approve each mortgage investment and to review the overall portfolio to ensure it is adequately diversified.

(c) Liquidity risk:

Liquidity risk is the risk that the Fund will not have sufficient cash to meet its obligations as they become due. The Fund mitigates this risk by monitoring its scheduled mortgage repayments and ensuring that sufficient funds are available in the near term to satisfy all of its obligations. The Fund's obligations are primarily those which arise under the revolving loan facility, the Mortgage Management Agreement and its Declaration of Trust. In the current economic climate and capital markets, the lenders may continue to tighten their lending standards which could make it challenging for the Fund to obtain financing on favourable terms, or to obtain financing at all.

The Fund's revolving loan facility (note 6) matured on May 31, 2012 and was renewed. The new facility matures August 1, 2012. The Fund's mortgages are predominantly short-term in nature, and as such, the continual repayment by borrowers of existing mortgage investments creates liquidity for ongoing mortgage investments and funding commitments.

If the Fund is unable to continue to have access to its revolving loan facility, the size of the Fund's mortgage portfolio will decrease and the income historically generated through holding a larger portfolio by utilizing leverage will not be earned.

The Fund is not obliged to invest in any mortgages originated by the Fund manager and, therefore, the Fund has no future funding obligations in respect of the Fund manager's mortgage commitments. The Fund is obliged to pay management fees to the Fund manager which are funded out of interest income.

Unitholders in the Fund have the limited right to redeem their units in the Fund, as described in its Offering Memorandum and paragraph 5.25 of the Fund's Declaration of Trust. The trustees are entitled, in their sole discretion, to extend the time for payment of any unitholder redemption if, in their reasonable opinion, such payment would be materially prejudicial to the interests of the remaining unitholders.

Romspen Mortgage Investment Fund

Notes to Interim Consolidated Financial Statements (continued)

(In thousands of dollars, except per unit amounts, unless otherwise noted)

Six months ended June 30, 2012 and 2011

14. Financial instrument risk management (continued):

(d) Market risk:

Market risk is the risk that the fair value of the collateral securing any of the Fund's mortgage investments falls to a level approaching the loan amount. The Fund manager ensures that it is aware of real estate market conditions in the regions in which it operates. Real estate market trends are monitored on an ongoing basis and the Fund manager's lending practices and policies are adjusted when necessary.

(e) Currency risk:

Currency risk is the risk that the fair value or future cash flows of the Fund's mortgages will fluctuate based on changes in foreign currency exchange rates. Approximately \$41,938 (2011 - nil), 4.9% of the total Fund's mortgages at year end, are denominated in United States dollars and secured primarily by charges on real estate located in United States; consequently, the Fund is subject to currency fluctuations that may impact its financial position and results.

(f) Capital risk management:

The Fund manages capital to attain its objective of providing stable and secure cash distributions of income while preserving unitholders' equity. The Fund defines capital as being capital raised by issuing Fund units. It is the Fund's policy to distribute 100% of its taxable income to unitholders, with the result that growth in the mortgage portfolio can only be achieved through the raising of additional equity capital and by utilizing available borrowing capacity.

The Fund raises equity capital on a monthly basis during periods where the Fund manager projects a greater volume of mortgage investment opportunities than the Fund's near-term capital would be sufficient to fund. In the event the Fund may have surplus equity capital, the trustees of the Fund have the right to redeem units held by unitholders or to declare a return of capital distribution.

The primary purpose of the Fund's borrowing strategy is to ensure that unitholders' capital is fully invested. As of June 30, 2012, the Fund's borrowings totalled 5% (2011 – NIL%) of the book value of its mortgages and the Fund was in compliance with all covenants under its revolving loan facility.

Unitholder Information

Units

The Fund units represent a beneficial ownership interest in the Romspen Mortgage Investment Fund. The Fund is an unincorporated closed-end investment trust and is the sole limited partner in the Romspen Mortgage Limited Partnership.

Distributions

Distributions on Fund units are payable on or about the 15th day of each month. The Fund is required to distribute its net earnings each year to the unitholders.

Distribution Reinvestment Plan

The distribution reinvestment plan provides unitholders a means to reinvest cash distributions in new units of the Fund. To participate, registered unitholders should contact Romspen.

Investor Relations Contact

Requests for the Fund's annual report, quarterly reports, or other corporate communications should be directed to:

Investor Relations
Romspen Mortgage Investment Fund
Suite 300, 162 Cumberland Street
Toronto, Ontario
M5R 3N5

Auditors

KPMG LLP
Chartered Accountants

Legal Counsel

Gardiner Roberts LLP

Duplicate Communication

Registered holders of Romspen units may receive more than one copy of shareholder mailings. Every effort is made to avoid duplication, but when units are registered under different names and/or addresses, multiple mailings result. Unitholders who receive but do not require more than one mailing for the same ownership are requested to contact Investor Relations and arrangements will be made to combine the accounts for mailing purposes.
